

EDUCATION

Kalyani Government Engineering College Bachelor of Technology - Electronics and Communication Engineering; CGPA: 7.33	Nadia, India September 2023 - August 2026
The Calcutta Technical School Diploma in Engineering and Technology - Computer Science and Technology; CGPA: 8.70	Kolkata, India June 2020 - August 2023

SKILLS SUMMARY

- ❖ **Languages:** Python · C++ · SQL · JavaScript
- ❖ **Frameworks & Libraries:** React.js · Next.js · Tailwind CSS · OpenCV · Numpy · Pandas · Scikit-Learn · Matplotlib
- ❖ **Tools & Platforms:** MongoDB · MySQL · Node.js · Streamlit · Convex DB · Firebase · LLM · RAG · Langchain · AWS
- ❖ **Soft Skills:** Rapport Building, Team Leadership, Excellent communication, Creativity, Time Management, Active Listener

EXPERIENCE

JUNIOR SOFTWARE ENGINEER Dynamic Pro Technology Solutions Offer Letter	January 26' - February 26'
Developed and optimized website structures, marketing funnels, automation workflows, and API integrations using GoHighLevel (GHL) to enhance digital marketing and CRM functionality	
TRAINEE AIRPORTS AUTHORITY OF INDIA LINK	July 25'
Gained comprehensive knowledge of Communication, Navigation, and Surveillance (CNS) systems critical to airport operations.	
CAMPUS AMBASSADOR GEEKSFORGEEKS LINK	April 24' - April 25'
Facilitated 5 + coding events and contests in Data Structures and Algorithms and Postman Application Programming Interface where more than 150 people attended and obtained 80% success on it.	
ARTIFICIAL INTELLIGENCE INTERN LANGUIFY AI LINK	November 24' - December 24'
Developed a 98%-accurate Automatic Speech Recognition model using wav2vec and Connectionist Temporal Classification loss, boosting transcription throughput by 15% over baseline CNN approaches.	

PROJECTS

Rag-based Financial Chatbot with access control system Github Repo	June 25 - July 25
Tech Stack: Python · Fast API · Chroma DB · Streamlit · LangChain · Google Gemini API · Pandas ➤ Created a chatbot enabling 5+ departments to access role-specific insights from over 500+ quarterly and annual documents with real-time Retrieval-Augmented Generation , reducing data access delays by 80% .	
Smart Doorbell Facial Verification using GANs Github Repo Report	April 25 - June 25
Tech Stack: Python · PyTorch · Flask · OpenCV · NumPy · Pillow ➤ Built a Facial Verification System using DCGAN and OpenCV's Haar Cascade, achieving 93.32% training accuracy, 91.67% validation accuracy, and a 1.66% generalization gap on a 1,000-image dataset.. ➤ Developed a web interface with HTML/CSS and Flask, connecting the trained model for real-time facial verification.	
Remote Interview Platform - INTERV-AK Github Repo Live Demo	March 25 - April 25
Tech Stack: NextJS · TailwindCSS · TypeScript · Stream API · Clerk · Convex DB ➤ Architected a Next.js & Tailwind CSS video-interview platform using Stream API and Clerk auth, delivering a 90% user-efficiency rating in pilot trials. ➤ Managed real-time session state with Convex, cutting sync latency by 50% and ensuring AES-256 encrypted media streaming. ➤ Published fully tested web interface with end-to-end session security and media streaming on Vercel, supporting 500+ concurrent users with 99.9% uptime.	
Notes App Github Repo Live Demo	July 25- August 25
Tech Stack: React.js · Vite · React Router · Axios · JWT · Mongo DB · Nodemailer · Vercel ➤ Developed a full-stack MERN application by engineering a RESTful API with 10+ endpoints for note management and secure authentication, alongside a responsive frontend built with over 10 React components.. ➤ Implemented Forgot Password feature with OTP verification over mail, securing the account access to 99% .	

CERTIFICATES / ACHIEVEMENTS

Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate CERTIFICATE	February 25
IT Support (Google) CERTIFICATE	July 23
Virtual internship on Artificial Intelligence and Data Analytics AICTE CERTIFICATE	December 24 - January 25
Google AI Essentials CERTIFICATE	April 25
Solved over 700 DSA problems, achieving 3 stars on the GeeksforGeeks platform through contests. Profile	
TCS Codevita Season 13 Qualifier Round 1 - 6320 Round 2 - 344 CERTIFICATE	
Ranked 17th in 30 Days of Kaggle Challenge by ML Kolkata 2025 Leaderboard	
Finalist of Felicity Hackathon, IIIT Hyderabad Project Demo	
Participated in Hack4 Bengal, Diversion 2k25 and more Certificates	
Organized Binary Hackathon with more than 1024+ registered participants Linkedin Page	
Research Paper published under Journal of Computer Science and Engineering in Innovations and Research Proof Certificate
